

Harvard Bioscience Announces Third Quarter 2022 Financial Results

November 8, 2022

"Fighting through challenging times while building the company and new technologies for the future."

HOLLISTON, Mass., Nov. 08, 2022 (GLOBE NEWSWIRE) -- Harvard Bioscience, Inc. (Nasdaq: HBIO) (the "Company") today announced financial results for the third quarter ended September 30, 2022.

Jim Green, Chairman and CEO, said, "Impacted by a challenging summer, our third quarter revenues were \$26.9 million, down 9% from the same quarter prior year. Growth of 6% in our cellular/molecular product revenues were more than offset by a 17% reduction in sales of our higher margin pre-clinical products and a negative currency impact of approximately \$1.0 million. Gross margin was down on lower revenue as well as higher costs of labor and materials, in addition to inventory charges related to the discontinuation of certain non-strategic products as a result of our previously communicated portfolio optimization. Operating margin was down from last year mainly on lower sales and lower gross margin."

Green continued, "In spite of headwinds in the quarter, we expect sequential revenue growth and an improved product mix in Q4 resulting in our gross margins returning to first half levels. Q4 revenue is expected to be in the \$30 million dollar range, with adjusted operating margin in the range of 14% to 15%.

We're very pleased to see our continued investment in research and development deliver three new product introductions. First, our new Ultrospec 7500 is a premium spectrophotometer well known in the academic laboratories now also targeted to the pharma/CRO space. Second is our exclusive continuous glucose monitoring telemetry implants driving new demand in academic, pharma, and government labs focused on ever increasing diabetes. Lastly, we're excited to see a large Q4 order for our BTX electroporation system using our unique Flat Pack Reaction Chamber to a top pharma company for use in bioproduction. Furthering these initial inroads, we see an emerging value proposition for our BTX system, which is often used in pharmaceutical research and development to create the initial strains of a therapeutic, to be used more broadly in production."

Green concluded, "Looking to the future, we expect to complete our portfolio optimization and related cost actions in Q4, with anticipated annual improvements of approximately \$4.0 million in gross margin and operating expense reductions of approximately \$1.5 million as we enter 2023. This leaning activity, combined with improved pricing and exciting new product introductions, is expected to drive new growth and make 2023 the year the company becomes the profitable growth-oriented platform we envisioned."

Quarterly Financial Results Summary		Q3'22		Q3'21	
Revenues	\$	26.9 million	\$	29.7 million	
Operating (Loss) Income (GAAP)	\$	(3.8) million	\$	0.5 million

For more details on performance for the three and nine months ended September 30, 2022, a slide presentation that will be referenced during the webcast referenced below will be posted to our Investor Relations website shortly before the webcast begins.

Please refer to the exhibits below for a reconciliation of certain non-GAAP to GAAP financial measures, including gross margin, operating income, net income and loss, diluted earnings per share and adjusted EBITDA. Please see "Use of Non-GAAP Financial Information" for additional information regarding our use of such adjusted financial information.

Webcast and Conference Call Details

Harvard Bioscience will be hosting a conference call and webcast today at 4:30 p.m. Eastern Time.

Covering Analysts who want to join the call and ask a question must register here. Once registered, you will receive the dial-in numbers and a unique PIN number.

Participants who want to join the audio-only webcast should go to our events and presentations on the investor website here.

Use of Non-GAAP Financial Information

In this press release, we have included non-GAAP financial information including adjusted operating income, adjusted operating margin, and adjusted

earnings per share. We believe that this non-GAAP financial information provides investors with an enhanced understanding of the underlying operations of the business. For the periods presented, these non-GAAP financial measures have excluded certain expenses and income resulting from items that we do not believe are representative of the underlying operations of the business, such as amortization of intangibles related to acquisitions, costs related to acquisition, disposition and integration initiatives, impairment charges, severance, restructuring and other business transformation expenses, and stock-based compensation expense, and litigation settlement expenses. They also exclude the tax impact of the reconciling items. Management believes that this non-GAAP financial information is important in comparing current results with prior period results and is useful to investors and financial analysts in assessing the Company's operating performance. Any non-GAAP financial statement information included herein is accompanied by a reconciliation to the nearest corresponding GAAP measure which are included as exhibits below in this press release.

The non-GAAP financial information provided in this press release should be considered in addition to, not as a substitute for, the financial information provided and presented in accordance with GAAP and may be different than other companies' non-GAAP financial information.

About Harvard Bioscience

Harvard Bioscience is a leading developer, manufacturer and seller of technologies, products and services that enable fundamental research, discovery, and pre-clinical testing for drug development. Our customers range from renowned academic institutions and government laboratories, to the world's leading pharmaceutical, biotechnology and contract research organizations. With operations in North America, Europe, and China, we sell through a combination of direct and distribution channels to customers around the world.

For more information, please visit our website at www.harvardbioscience.com.

Forward-Looking Statements

This press release contains forward-looking statements within the meaning of the federal securities laws, including the Private Securities Litigation Reform Act of 1995. You can identify these statements by our use of such words as "will," "guidance," "objectives," "optimistic," "potential," "future," "expects," "plans," "estimates," "continue," "drive," "strategy," "potential," "potentially," "growth," "long-term," "projects," "projected," "intends," "believes," "goals," "sees," "seek," "develop" "possible" "new," "emerging," "opportunity," "pursue" and similar expressions that do not relate to historical matters. Forward-looking statements in this press release or that may be made during our conference call may include, but are not limited to, statements or inferences about the Company's or management's beliefs or expectations, the Company's anticipated future revenues and earnings, the strength of the Cowpany's market position and business model, industry outlook, the impact of the COVID-19 pandemic and related supply chain disruptions on the Company's business, the Company's business strategy, the positioning of the Company for growth, the market demand and opportunity for the Company's current products, or products it is developing or intends to develop, and the Company's plans, objectives and intentions that are not historical facts. These statements involve known and unknown risks, uncertainties and other factors that may cause the Company's actual results, performance, or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Investors should note that many factors, as more fully described under the caption "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2021, and in our other filings with the Securities and Exchange Commission and as otherwise enumerated herein or therein may cause the Company's actual results to differ materially from those in the forward-looking statements. The forwardlooking statements in this press release are qualified by these risk factors. The Company's results may also be affected by factors of which the Company is not currently aware. The Company may not update these forward-looking statements, even though its situation may change in the future, unless it has obligations under the federal securities laws to update and disclose material developments related to previously disclosed information.
