

## **Harvard Bioscience President David Green to Present at 2008 UBS Global Life Sciences Conference on September 23, 2008**

HOLLISTON, Mass.--(BUSINESS WIRE)--Sept. 10, 2008--Harvard Bioscience, Inc. (Nasdaq: HBIO), a global developer, manufacturer and marketer of a broad range of specialized products used to advance life science research, today announced that its President, David Green, will present at the 2008 UBS Global Life Sciences Conference on Tuesday, September 23, 2008 at 1:00 p.m. local time at the Grand Hyatt Hotel in New York.

To hear a live webcast of our presentation, visit the "Presentations & Webcasts" tab on our Company website at [www.harvardbioscience.com](http://www.harvardbioscience.com). Our presentation will be available by replay three hours after the actual presentation time and will be accessible through October 25, 2008. Mr. Green's presentation will be available at [www.ibb.ubs.com](http://www.ibb.ubs.com) or can be downloaded from our website by clicking on the investor presentation icon. The presentation will cover the historical and expected future performance of the business. There will be a question and answer session following the presentation. Some of the information to be presented by Mr. Green or provided in response to questions may contain information that has not previously been disclosed. Additionally, any material financial or other statistical information presented in our presentation or in the question and answer session, which has not been previously disclosed will be archived and available in the Investor Relations section of our website.

### About Harvard Bioscience

Harvard Bioscience ("HBIO") is a global developer, manufacturer and marketer of a broad range of specialized products, primarily scientific instruments and apparatus, used to advance life science research at pharmaceutical and biotechnology companies, universities and government laboratories worldwide. HBIO sells its products to thousands of researchers in over 100 countries primarily through its 900 page catalog (and various other specialty catalogs), its website and through its distributors, including GE Healthcare, Thermo Fisher Scientific and VWR. HBIO has sales and manufacturing operations in the United States, the United Kingdom, Germany and Spain with additional facilities in France and Canada.
