

Harvard Bioscience Announces Fourth Quarter 2022 Financial Results

March 9, 2023

HOLLISTON, Mass., March 09, 2023 (GLOBE NEWSWIRE) -- Harvard Bioscience, Inc. (Nasdaq: HBIO) (the "Company") today announced financial results for the fourth quarter and year ended December 31, 2022.

Our fourth quarter revenues were \$28.4 million, down 14% versus the comparable prior year period, including a negative currency impact of \$1.0 million. During the quarter ended December 31, 2022, our cellular and molecular product revenues were roughly flat after adjusting for currency impacts. Pre-clinical revenue was down from prior year, with demand showing signs of recovery as ordering activity increased late in the quarter.

Jim Green, Chairman and CEO, concluded, "Looking to the future, I am excited about our pivot from cost optimization to profitable growth. We completed our previously announced portfolio optimization and related cost actions in Q4. We expect that our recently launched products and anticipated new growth in consumables and services will support 2023 reported revenue growth in the low-to-mid single digits. We expect improving gross margin and significant expansion of adjusted EBITDA margins in 2023. With anticipated improvements in margin and working capital, we plan to pay down debt and reduce our leverage ratio closer to 2 times by year end."
