## Harvard Bioscience Announces Delay in Filing Form 10-K

- **Reports Delay is Result of Forensic Investigation Following Minor Employee Theft**
- **Will schedule conference call to discuss fourth quarter and full year 2015 results upon completion of the investigation**

HOLLISTON, Mass., March 14, 2016 (GLOBE NEWSWIRE) -- Harvard Bioscience, Inc. (Nasdaq:HBIO) (the "Company"), a global developer, manufacturer and marketer of a broad range of solutions to advance life science, today announced that it will delay filing its annual report on Form 10-K for the fiscal year ended December 31, 2015. The Company will file a Form 12b-25, Notification of Late Filing, with the Securities and Exchange Commission, which allows the Company to extend the deadline to file its Form 10-K to March 30, 2016. The Form 10-K filing, as well as the earnings release, have been delayed due to the timing of a forensic investigation initiated by the Company following its discovery, based upon preliminary findings, that an employee at Denville Scientific, Inc., one of its wholly-owned subsidiaries ("Denville"), appears to have embezzled money from the Company and manipulated certain records in an attempt to conceal the theft.

The embezzlement was detected by the Company's management as a result of year-end audit procedures performed by its independent registered public accounting firm. Upon detecting the embezzlement, the Company commenced an investigation, including the engagement of a forensic accounting expert to conduct an investigation to determine the scope and amount of the inappropriate activity. The Company believes, based upon the preliminary results of such forensic investigation, that the embezzlement was limited to the Denville financial statements, the aggregate amount of embezzled funds was less than \$50,000.

The Company is evaluating the effectiveness of its internal control over financial reporting with respect to this matter to assess if any control deficiencies identified could result in a material weakness of its internal control over financial reporting and the Company will develop a remediation plan to address any such material weakness.

The Company is also working with its corporate counsel and local authorities to determine the best course of action from both a legal and recovery perspective.

The Company will schedule its fourth quarter and full year 2015 conference call to coincide with its filing of its Form 10-K.
